MARKING GUIDELINES

Time: 3 hours

100 marks

These marking guidelines are prepared for use by examiners and sub-examiners, all of whom are required to attend a standardisation meeting to ensure that the guidelines are consistently interpreted and applied in the marking of candidates' scripts.

The IEB will not enter into any discussions or correspondence about any marking guidelines. It is acknowledged that there may be different views about some matters of emphasis or detail in the guidelines. It is also recognised that, without the benefit of attendance at a standardisation meeting, there may be different interpretations of the application of the marking guidelines.

QUESTION 6

Listen to **Track 17 (03:40)** and **Track 18 (02:57)** which are two different arrangements of one of your set works.

In an essay, critically evaluate the extent to which the arrangers of **Track 17** and **Track 18** have recreated the original version of the piece. Your evaluation must focus on the elements of music in each arrangement.

DO NOT offer your opinion on the quality ('goodness'/'badness') of the arrangements, but rather give specific examples from the recordings of how the arrangers have recreated the original work.

In addition to your evaluation, include the following information:

- The name of the set work and the composer.
- The style of South African Urban Music represented by the set work.
- The historical context of the original song.
- The response of the government to the original song

Your essay will be marked using the following rubric:

RUBRIC FOR ESSAY	
20–16	Candidate clearly demonstrates an understanding of the question, cites factual evidence and refers to elements of music such as melody, metre, texture etc. Completes all requirements, and provides an insightful comparison of the works, with reference to both the general characteristics of the styles and the specific features of the two tracks.
15,5–10,5	Demonstrates an understanding of the question, completes all requirements, cites factual evidence and provides some references to elements of music such as melody, metre, texture, etc. with some reference to both the general characteristics of the styles and the specific features of the tracks.
10–5,5	Meets all the requirements but demonstrates only a partial understanding of the question and limited factual evidence. Limited reference to elements of music such as melody, metre, texture etc., with only partial reference to either the general characteristics of the styles or the specific features of the tracks. There is an imbalance between the sections of the essay.
5–0,5	Demonstrates minimal understanding of the question, does not complete all requirements, and provides only a vague reference to, or no use of the facts or the elements of music. No comparison is offered. There is no balance within the essay.

The memo is tabulated to make marking easier. The candidate's response must be written in essay form.
